

Covid-19 Risk Assessment – Retail (Tesco Stores Ltd).

Scope		Commentary
Areas Included / Not Included	Includes: All UK Tesco Stores Ltd store departments except for Retail Dotcom Excludes: One Stop, Jack's, Booker	Our approach to managing risk throughout the COVID19 response is aligned with our organisational commitment that "Nothing is more important than the safety of our customers and colleagues". Our focus has been to align with the developing guidelines from Public Health England, the devolved governments and the Department for Business, Energy & Industrial Strategy (BEIS). The control measures in place will be subject to ongoing and developing assurance activities and are supported by detailed Instruction, Information, Training and Supervision. Our controls centre around the principles of maintaining Social Distancing and good hygiene standards for our customers and colleagues. In line with our safety management system and Tesco's duty as an employer, our aim has been to reduce workplace risk to the lowest reasonably practicable level. We have achieved this by implementing preventative measures to minimise any potential residual risk based on the scientific guidance and advice available as the situation develops. This risk assessment has been prepared and agreed in consultation with our recognised Trade Unions.
